Discover top science with free access to our new journals

Biomaterials Science
Brings together the molecular and mesoscopic interactions of biomaterials and their potential applications
www.rsc.org/biomaterialsscience

Materials Horizons
The home for rapid reports of exceptional significance on innovative materials
http://rsc.li/materials-horizons

Environmental Science: Nano
Cutting-edge research on the interactions of nanomaterials with biological and environmental systems
http://rsc.li/es-nano

Inorganic Chemistry Frontiers
An international journal developed by the Chinese Chemical Society and Peking University.
Publishes high quality work on inorganic and organometallic molecules and solids with explicit applications
http://rsc.li/frontiers-inorganic

Organic Chemistry Frontiers
An international journal developed by the Chinese Chemical Society and the Shanghai Institute of Organic Chemistry.
Publishes high impact work from all disciplines of organic chemistry
http://rsc.li/frontiers-organic

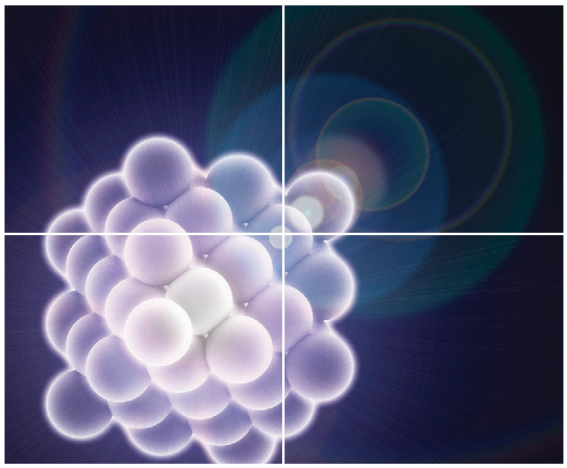
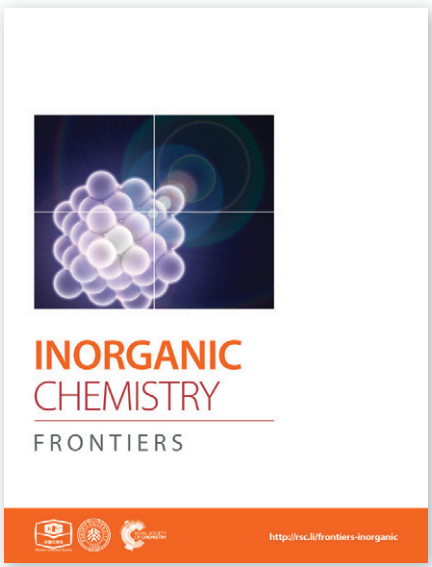
ROYAL SOCIETY OF CHEMISTRY

INORGANIC CHEMISTRY

FRONTIERS

An international journal developed by the Chinese Chemical Society and Peking University





Editor-in-Chief:
Song Gao, Peking University, China

Inorganic Chemistry Frontiers is a high impact journal publishing work on inorganic and organometallic molecules and solids with explicit applications. This includes inorganic chemistry research at the interfaces of materials science, energy, nanoscience, catalysis and bio-inorganic chemistry. Papers should be of high significance and answer fundamental questions relevant to interdisciplinary applications.

- All content free to access until end 2015 ensuring the highest visibility for your work
- Rapid publication times
- No submission charges or page limits, and free colour
- Open access publishing options
- Free electronic reprints of own paper
- Simple and user-friendly online submission process
