Jaffar Hasnain *et al.*

Dynamic phases of colloidal monolayers sliding on commensurate substrates

1744-683X(2013)9:25;1-3

Environmental Science Processes & Impacts

A unique environmental journal for high quality research on
environmental processes and impacts

Environmental Science Processes & Impacts

Formerly Journal of Environmental Monitoring

www.rsc.org

RSC Publishing

@ESPI_RSC

Environmental Science: Processes & Impacts covers sampling, analysis, detection and measurement for the elucidation of environmental processes and impacts resulting from both natural and anthropogenic contaminants. It places special emphasis on the effects of exposure to contaminants and assessment of the associated risks on both environmental and human health.

Authors benefit from:

- Simple online submission and a speedy peer review and publication process
- The option of publishing research as an Accepted Manuscript, making work available quickly after acceptance
- Free colour, no page charges
- Open access publishing options, compliant with most major funding agencies
