

# MICROID FLASK SHAKER

*A new variable speed "wrist-action"  
shaker—silent, portable and efficient*

*Leaflet G.T. 1351/01  
free on application.*

This handy shaking machine will stand on the laboratory bench. Total load, four 500 ml. flasks each half full. Frequency of shaking continuously variable up to 500 cycles/min. Power consumption 60 watts.

The Microid Flask Shaker is silent in operation. It abolishes the tedium of hand shaking. It can find a use in every chemical laboratory.

## NOW IN STANDARD CASES AT *Special Discounts*

The most popular items and sizes of Chance Brothers' "Hysil" Laboratory Glassware are now available in Standard Cases. Furnishers and Users will find that this new arrangement greatly simplifies the ordering, handling and stocking of "Hysil."

### EXAMPLE CASES

Tall Beakers, 600 ml. ... ..	60
Squat Beakers, 250 ml. ... ..	84
Flat-bottom Flasks, 500 ml. ... ..	72
Distillation Flasks, 1,000 ml. ... ..	12
Round-bottom Flasks, 5,000 ml. ... ..	6

A new price list of 'Hysil' Laboratory Glassware is now available and will be sent on request. All popular items and sizes are specially indicated and by confining their orders to these sizes Furnishers and Users will obtain quicker delivery than if their orders include items which are not in such general demand.

### DISCOUNTS

#### NUMBER OF CASES

1 to 9	10%
10 to 19	10 and 2½%
20 to 29	10 and 5%
30 to 39	10 and 7½%
40 and over	10 and 10%

## Research in Pharmacology and Chemotherapy

### THE QUARTERLY JOURNAL OF PHARMACY AND PHARMACOLOGY

publishes original research papers, and abstracts of the world's literature on pharmacology, chemotherapy, biochemistry, pharmacy, pharmacognosy and allied subjects. The following are examples of research papers included in the current issue:

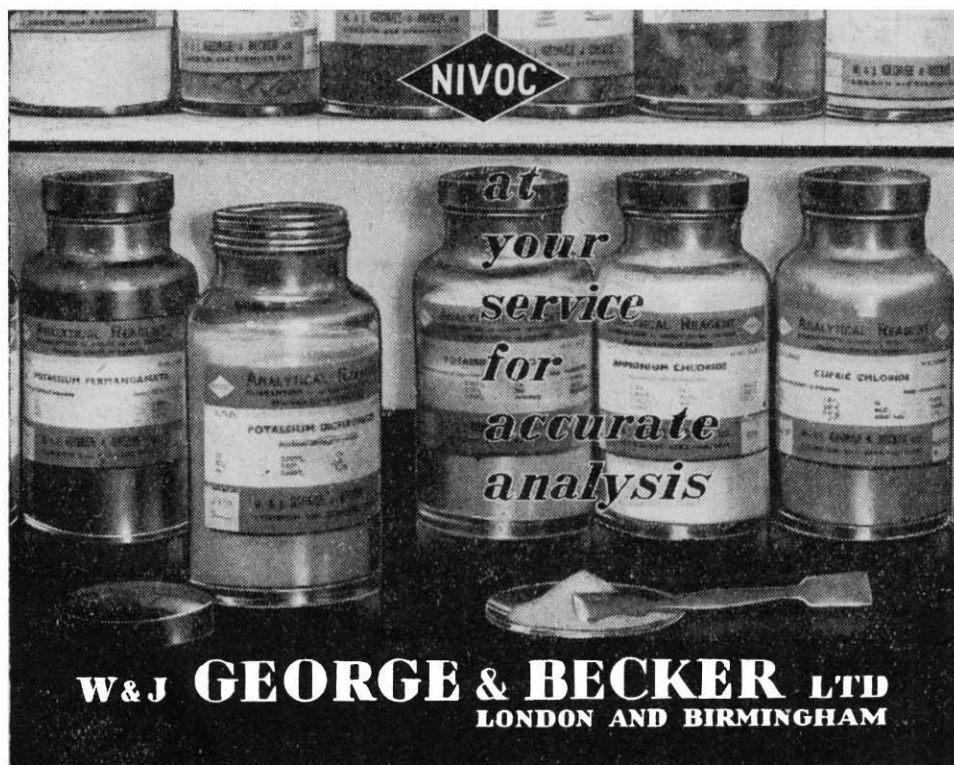

*Pharmacological Properties of Iodinated and Brominated Choline*  
*Determination of Betanaphthol in Gelatin Capsules*  
*Chromatographic Analysis of Alkaloidal Salts*  
*Determination of Barbituric Acid Derivatives*  
*Synthesis of a New Homologue of Mescaline*  
*Derivatives of Propylbenzene as Synthetic Sex Hormones—Part I*

Editor: C. H. Hampshire, M.B., B.S., B.Sc., Ph.C., F.R.I.C.

Annual Subscription (including binding cover): 30s.

# Spectrographically STANDARDISED SUBSTANCES

METALS · OXIDES · SALTS AND SOLUTIONS FOR  
SPECTROGRAPHY, CHEMICAL  
ANALYSIS AND RESEARCH

With the increasing application of the Spectrograph in academic research, industrial research and in production control, the need for a standard range of elements in the forms of pure metals, oxides or other compounds has become apparent.

We are now able to supply sixty-eight elements in the highest state of purity, all of which have been subjected to rigorous chemical and spectrographic analysis. For details of the forms in which these elements are supplied write for publication No. 1760.

## HIS MAJESTY'S COLONIAL SERVICE.

**T**HERE are vacancies for Chemists in the Joint Department of Chemistry, Malayan Union and Singapore. Appointments are permanent and pensionable after 3 years on probation. Salary scale: \$400 a month rising by annual increments of \$25 a month to \$800 a month (for exchange purposes \$1 equals 2s. 4d.). On confirmation in permanent appointment would be required to contribute 4 per cent. of salary to Widows and Orphans Pensions Scheme. War service and experience will be taken into account in determining the initial salary to be offered. Cost of living allowance at present \$10 a month plus 20 per cent. of salary (30 per cent. for married officers) subject to a maximum of \$110 a month (\$160 for married officers). Allowances also paid in respect of officers' children under 18. Government quarters (if available) provided at a nominal rent. If unavailable an allowance is paid in lieu. Income tax at local rates only (Malayan rates not yet announced). Free medical attendance. Free passages for officers and their wives and children (under 10 years of age) up to four persons in all once each way in each tour of service. Tour on first appointment 3-4 years earning approximately 5½ months home leave.

Qualifications: Only candidates who hold a good honours degree in chemistry and/or the Fellowship or Associateship of the Royal Institute of Chemistry can be considered. Preference will be given to unmarried candidates under 35 years of age who hold the Institute's Certificate in Branch E. (Food, Drugs, and Water) and who have gained experience in a Government or Public Analyst's Laboratory. Application forms obtainable from the Director of Recruitment, Colonial Service, 15, Victoria Street, London, S.W.1.

**A** QUALIFIED CHEMIST with a Chemical and/or Pharmaceutical qualification required as an Assistant to the Manager of the Manufacturing Department of a West London firm of Manufacturing Chemists. Commencing salary £550. Write, giving full details of age, experience and qualifications to Box No. 3669, THE ANALYST, 47, Gresham Street, London, E.C.2.

**Q**UALIFIED CHEMIST, B.Sc. or A.R.I.C., required for Research Laboratory of a firm of Manufacturing Chemists in West London. A pharmaceutical qualification would be an advantage although not essential. The position is a permanent one. Commencing salary £450. Write giving full details to: Box No. 3663, THE ANALYST, 47, Gresham Street, London, E.C.2.

**Q**UALIFIED CHEMIST with Chemical or Pharmaceutical qualifications required for the Analytical Control Laboratory of a toilet and perfumery factory in North-West London. The position is a permanent one. Commencing salary £450. Write giving full details to Box No. 3664, THE ANALYST, 47, Gresham Street, London, E.C.2.

**A**NALYST (age 30 to 35 years) required for a position of authority in the Analytical and Control Laboratory of an organisation manufacturing foods and pharmaceuticals in N.W. London. Applicant should hold the F.R.I.C. (Branch E) qualification, as well as a degree in chemistry (including physical chemistry). A pharmaceutical qualification would be an advantage, and only candidates having several years' industrial experience in a similar position will be considered; they should have an up-to-date knowledge of analytical methods (particularly of organic materials) and be familiar with the routine estimation of vitamins (including spectroscopic methods). A superannuation scheme is in operation. Write stating salary required to Box No. 3666, THE ANALYST, 47, Gresham Street, London, E.C.2.

**A**NALYTICAL CHEMIST (either sex) required to take part in the work of routine control of foods and pharmaceutical products, and in the general work of the analytical laboratory. Candidates should hold a degree in Chemistry or its equivalent, and have had some analytical experience preferably including physical methods of analysis) either with a public analyst or in an industrial laboratory. The position is pensionable, and the salary will be between £400 and £500 per annum according to experience. Apply to Personnel Department, Glaxo Laboratories, Greenford, Middlesex.

**T**HE DISTILLERS COMPANY LIMITED require a qualified chemist with experience of analytical work for research on analytical methods. Applicants should possess a first or second class honours degree or equivalent, and an F.R.I.C. in analytical chemistry and/or knowledge of the newer physical techniques employable in analysis would be an advantage. Applications should be made to the Controller of Research and Development, The Distillers Company Limited, Research Department, Great Burgh, Epsom, Surrey, stating age, qualifications, experience and salary required.

**I**MPERIAL CHEMICAL INDUSTRIES LIMITED, Plastics Division, Welwyn Garden City, require for their Analytical Department two Analytical Chemists. Candidates, who may be male or female, should be either Honours Graduates in Chemistry or Associates of the Royal Institute of Chemistry and should preferably have specialised in Metallurgical Analysis or Spectrographic Analysis, i.e. Emission and U.V. Adsorption. Age preferably under 35. Apply for Application Form to the Staff Manager, Plastics Division, Imperial Chemical Industries Ltd., Black Fan Road, Welwyn Garden City, Herts., quoting a/9.

**T**HE Goodwill, Library and Laboratory of a Consulting and Analytical Chemical Practice in New Zealand, together with an adjacent dwelling house, is offered at about £5,000. The practice includes the analysis of foods, drugs, waters, oils, fertilisers, feeding stuffs, brewing materials, etc. Full particulars available in London. Write Box 3667, THE ANALYST, 47, Gresham Street, London, E.C.2.

**L**ONDON Manufacturer of Quality Soft Drinks requires Laboratory Assistant for Quality Control, Compounding, etc. Minimum of Inter. B.Sc. standard essential. Salary according to qualifications. Write giving experience, age, etc., to Box 3668, THE ANALYST, 47, Gresham Street London, E.C.2.
