The Merck Index 15th Edition

Chemistry's Constant Companion[™]

Editor **Maryadele J. O'Neil**

With over 1 million copies sold, The Merck Index is *the* definitive reference work for scientists and professionals looking for authoritative information on chemicals, drugs and biologicals.

The fully revised and updated 15th edition is now available from the Royal Society of Chemistry (RSC).

Every book purchase includes one-year's **FREE ACCESS^{**}** to The Merck Index Online.

Hardback | 2708 pages | ISBN 9781849736701 | 2013 | £99.99 | \$150

Showcasing work from Professor Zhenxin Wang's laboratory in Changchun Institute of Applied Chemistry, Chinese Academy of Sciences.

Title: Preparation and application of thionin-bridged graphene–gold nanoparticle nanohybrids

This work introduces a covalent way to prepare gold nanoparticle–graphene nanohybrids, in which the size and distribution density of nanoparticles can be well controlled. As-obtained nanohybrids can be further functionalized by sulfhydryl-containing ligands. Furthermore, the nanohybrids show great potential application in photothermal therapy.
